- 1 x Owner's Manual

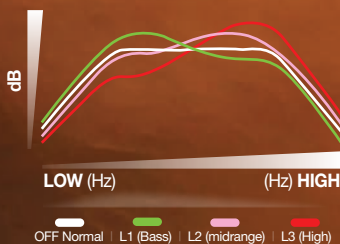

In-built 5V USB Charge Port

## Voice Enhancer

Choose from 4 different audio level settings (Normal, Bass, Midrange and High) to provide a natural Voice Enhancer for super clarity and performance.

Only Uniden can bring you this technology – Voice Enhancer.

### 80 UHF Narrowband Channels\*:

Choose from up to 80 frequencies to transmit and receive messages.

### Mini Compact Size:

Only 26mm (H) x 100mm (W) x 90mm (D).

**USB Charge Port:** Ability to charge any compatible device like Smartphone or Tablet through the UHF Radio (5V / 2.1A Max).

### Large LCD Display & Flip LCD Feature:

Large icon display with flip feature for optional reverse mounting.

### 7 Colour LCD/Backlit Options:

Select from 7 backlight colour options; Blue, Red, Orange, Green, Cyan, Yellow and Clear (white), and 4 brightness levels; Off, Lo, Mid and Hi.

**Built-In AVS Circuitry:** The Automatic Volume Stabilizer detects Narrowband and Wideband transmissions and automatically adjusts incoming audio to comparable levels.

### 5W Transmission Power:

Maximum transmit power.

### Signal Strength and RF Power (S/Rf) Meter

### Instant Channel Programming and Recall:

Program any channel as the Instant priority channel and recall it at the touch of a button located on the mic.

**Open Scan:** This scan mode scans all channels in memory and locks on any active channel.

**Voice Enhancer:** Choose from 4 different audio settings (Normal, Bass, Midrange and High) to provide a natural Voice Enhancer for super clarity and performance.

**Group Scan:** This scan mode allows the user to select the channels they wish to monitor/listen to in a group, along with a priority channel (priority watch).

### Monitor On/Off Function

### Duplex Capability:

Allows the radio to operate via a local repeater station, if available, which re-transmits your signal over a wider area. Up to an extra 30 – 100km depending on location, height and availability of local repeater station.

### Key Beep On/Off Function

### Rotary Volume Knob

### Busy Channel Lock-out Function:

Disables your transmitter while activity is detected on the channel.

### Roger Beep Function On/Off:

Confirmation tone indicates the completion of your transmission.

**Voice Scramble Function:** Enabling private communication by scrambling the voice signal, preventing other users without special equipment to understand the conversation. Compatible Uniden units will be able to understand the signal.

**Call Tones:** Transmit up to 5 different calling tones to contact other users.

**Auto Squelch:** Adjustable auto squelch detection threshold control (off, 1 – 9).

**Volume Control:** Adjustable volume control levels (off, 1 – 40).

### Power On/Off Control Switch

### External Speaker Jack

### CTCSS (Continuous Tone Coded Squelch System) and DCS (Digital Coded Squelch) Codes:

Choose from 38 (CTCSS) and 104 (DCS) digital codes that can be sent with your transmission. The code is recognised by the selected receivers enabling them to receive the transmission. Receivers that do not recognise the code remain silent therefore blocking out unwanted conversations.

### Designed & Engineered in Japan

### Built Rugged for Australian and New Zealand Conditions

\* Please note CH 22 & 23 are used for telemetry and telecommand applications, voice communications are not permitted on these channels and transmission is inhibited. CH 61, 62 & 63 are for future use and are receive only channels.

Δ One year warranty on any included accessories. Specifications subject to change without notice.
